Six Killed and 35 Wounded
When Troops Charge

JEERS AND INSULTS

French Premier Millerand Explains
Action to Allied Ambassadors At
Conference.

Frankfort, April 8.—French colonial troops, with the army of occupation, clashed with German civilians on the streets here yesterday afternoon.

Angered by jeers and insults from the Germans, the colonials, yelling, charged into street crowds. Six were reported killed and 35 wounded.

Following a rumor that the United States and England had requested the French to leave Frankfort, German civilians became arrogant and insulting toward the French.

Previous to the clash, crowds had disarmed guards, escorting Germans under arrest for insults toward the French. Reinforced, the guards, regained their arms and prisoners, whereupon angered civilians began hurling stones at the soldiers.

Tanks and machine guns were brought into action to clear the streets.

Berlin, April 8.—A great military conspiracy, which was to have been a Bavarian parallel to the recent Berlin revolution, has been discovered in Munich, it is announced. Part of the plan was that General Ludendorff be made dictator over Bavaria and Dr. Heim, of the Bavarian Separatists, a sort of civil and economic dictator.

Paris, April 8.—Premier Millerand at the conference of ambassadors yesterday evening, explained the French attitude toward Germany. He reviewed the event that led up to the occupation of Frankfort and the other German cities.

The Premier made no reference to France's future policy beyond reiterating that the occupied cities would be evacuated as soon as the German troops were completely withdrawn from the Ruhr district.

The Earl of Derby, British Ambassador to France; Hugh C. Williams, the American Ambassador, and Baron Matsui, the Japanese Ambassador, were present at the conference, as was also the Italian Ambassador. None of them made any remarks which might be construed as either approving or disapproving the French attitude on behalf of the governments they represent.

The newspapers of Berlin say that news received from all parts of the Rhine provinces indicates the proclamation of a Rhine republic is imminent, according to dispatches from the German capital.

Washington, April 8.—President Wilson is withholding his opinion as to the French advance into the neutral territory east of the Rhine until he has received more information. Administration officials say the question is one of facts between France and Germany.

STRIKE IN CHICAGO

Switchmen's Walkout in Chicago
Spreads; Engineers and
Firemen Quit

Chicago, April 8.—The railway switchmen's strike, which started in Chicago a week ago when 650 men walked out, had spread yesterday to every road entering the city and to the large railroad centers in the Middle West. Strike leaders claimed the movement would become nationwide by the end of this week. Engineers and firemen were reported joining the switchmen.

The strike was condemned by the Brotherhood of Railway Trainmen and last night representatives of the Brotherhood of Locomotive Engineers and the Brotherhood of Railroad Firemen were in conference. The union chiefs hoped to stem the strike and bring the men back into line.

A shut down of industries and a food and fuel famine in Chicago was the unavoidable outlook last night as a result of the strike which has tied up the freight movement into the city.

CAMPBELL SHOWS DRAW BIG CROWD

The H. W. Campbell United Shows and Wild Animal Exhibition continues to draw the crowds to their show grounds. Wednesday night saw a great number of amusement enthusiasts enjoying the splendid amusements offered by the various shows and novel riding devices that go to make up this wonderful amusement enterprise.

A daring performance is offered at the autodrome, where men and women riders and drivers, send the shells through the onlookers, by their apparent indifference with death as they dash madly up and down and around the perpendicular wall of a race track seven in diameter.

The Campbell Shows will remain throughout the week, presenting their performances afternoon and evening.

The street parade given Wednesday, will be repeated on Saturday afternoon at one o'clock.

PEACE RESOLUTION GIVES NO RELIEF

House Will Vote on Issue
Tomorrow Afternoon
At 5 O'clock

DEBATE OF TWO HOURS

Both Parties Anxious to Push Measure Through; Unconstitutional, Says Democrat

Washington, D. C., April 8.—The peace resolution is unconstitutional and will afford no relief from the burden of war legislation, Representative Flood, of Virginia, ranking Democrat, of the House Foreign Affairs Committee, charged yesterday in the minority report filed on the war of debate upon the resolution.

The House today will take up the special rule on the peace resolution, two hours of debate being scheduled, and on Friday a vote upon the resolution will be taken at 5 o'clock. Under the rule which was reported by the committee yesterday after a motion to allow 10 hours of debate made by Representative Fox, of North Carolina had been defeated 7 to 3, no amendments will be in order and only one motion to recommit can be considered.

The stage is all set to hasten the resolution through the House on schedule. The Democrats declare that they have no intention of filibustering, and both sides seem anxious to curtail debate to a reasonable degree and put the resolution through without delay.

The minority report filed yesterday by Mr. Flood stated: "The purpose of this resolution is to terminate the state of war between the United States and Germany, to fix the date of termination of war, to make a treaty of peace with Germany, to attempt to preserve something out of the wreck of American rights, which this resolution destroys."

Referring to the statement in the resolution that the President has advised Congress that war is ended, Mr. Flood said, "At no time and under no circumstances has the President made any such assertion. The President in an address to Congress used the words, 'the war thus comes to an end,' but he spoke of actual hostilities and not the technical state of war. It takes a treaty to end a war."

"By quoting this statement of the President as the basis of the resolution, the authors of the resolution lay themselves open to the charges of insincerity and sharp practice."

Crockett In Jail

His Attorneys Ask For Writ of Habeas Corpus Which Will Be Returnable Next Wednesday

David Crockett, recently convicted by the Corporation Court of this city of violating the prohibition law by selling whiskey, and fined \$1,000 and sentenced to serve six months in prison was taken in charge today and placed in jail. Shortly after he had been taken in custody his counsel applied to Judge Brent, of the Circuit Court for a writ of habeas corpus, the hearing of which was held this afternoon.

Crockett, it will be remembered, took his case to State Court of Appeals, but that tribunal refused to grant a writ of error and supercedas. An amended appeal was subsequently made, but that also was refused.

Evening of Fun

Program Staged by Andrew Jackson Lodge of Masons Attracts Big Crowd

The ladies' night entertainment given in the Elks' Hall last night under the auspices of the Andrew Jackson Lodge of Masons of this city, was a delightful success.

Standing room was all that some could get, the ladies were present in large numbers, and yet it was worth while for the pleasure of the evening. Elliott Hoffman presided and introduced the speakers.

Charles H. Callahan entertained the audience in his usual eloquent and instructive manner, on Mount Vernon.

There were some in the audience from Washington as entertainers and guests, among them H. L. Shuttley, a humorist, who was called out several times.

A. A. Lang, soloist, had to appear again and again. Mrs. Phil Addison charmed the assemblage with her songs. The Professional Quartette rendered several selections in good style and without accompaniment.

The "Farce Degree" under Mr. Coles and a number of men in the local lodge, who proved themselves equal to the occasion by their wit and humor, was very much enjoyed. It would be impossible to mention each one, but the guards seemed to call forth as much applause as the unfortunate candidate.

Dancing was the order of the last hour of the entertainment and, many remained to participate. While there were a great many of the craft present, yet for the benefit of those who were not, it is said that the "Farce Degree" will be repeated at the next meeting of the lodge, April 15th at 8 p. m.

PALMER'S CHANCES IN CONVENTION

Chairman Carlin Jubilant
Over Present Indications

ASSURANCES GIVEN

Minnesota, Iowa and Maine Delegations Believed to Favor Attorney General for Nomination

The Minnesota delegation of the Democratic national convention at San Francisco, will be solid for the nomination of Attorney-General Mitchell Palmer.

This announcement is made by Hon. C. C. Carlin, chairman of the Palmer primary campaign committee. His statement was based upon a telegram received by him from Fred B. Lynch, Democratic national committeeman for Minnesota in which he says that the entire delegation to the national convention chosen Tuesday would be for Palmer for president.

The delegation is not instructed, but according to the Lynch telegram every man on the delegation is unreservedly a Palmer man.

The Minnesota contest was a spirited one but there was no division of sentiment over the choice of candidate, the rivalry developing merely over the personnel of the delegation which should go to the convention.

Mr. Carlin is also advised by Mr. Wilbur Marsh national committeeman for Iowa that the solid delegation from that state would be for Palmer from first to last. This delegation has already been chosen, although nominally it will carry instructions to the convention the delegation is made up of men who strongly favor the nomination of the attorney-general and who have expressed their determination to vote for him.

Mr. Carlin said further that information he had received justified his statement that the Maine delegation would also be for Palmer, Minnesota has twenty-four votes in the convention Iowa twenty-six and Maine twelve.

RODMAN HARSH ON SIMS

Sarcasm in Suggestion That "War Was Not Fought in London."

Washington, April 8.—Admiral W. S. Sims charges that the navy was unprepared when America entered the war were branded as an "ill-advised and indiscreet" attempt to "discredit the navy" by Admiral Hugh Rodman yesterday.

Rodman, now commander of the Pacific fleet, and commander of the American battleship forces which served with the British grand fleet during the war, was the first witness called in defense of the Navy Department.

"Never have I seen such efficiency and preparedness as obtained at that time," Rodman asserted, referring to when America entered the war.

Rodman said he was before the committee "to defend the good name of the navy," which has viewed the Sims attack with deepest censure.

Sims, he said, occupied a "subordinate" post at London as a sort of liaison officer, and "possibly in his earnest endeavors has arrogated to his office more importance than was actually the case."

Rodman charged Sims with a "breach of confidence" in disclosing confidential admonitions "which should have been kept secret."

"I have an idea that the war was not fought and won in London," Rodman continued sarcastically. "The whole responsibility of winning this war was not placed on the shoulders of Admiral Sims in his London office."

Asked regarding Admiral Sims' charge that 500,000 men lost their lives because of delay in the Navy Department Rodman replied:

"There are lies, damned lies, and statistics. That statement falls in the last class. Nobody was responsible for whatever loss of life there was. The statement is ridiculous. Assuming that 500,000 men were killed, our responsibility could not be more than 10 per cent of that, as the maximum force we could have exerted against the submarines would not have been larger than 10 per cent of the total forces."

SPRING GALA WEEK

Johnny J. Jones to Show Here April 19 to 24

The Great Johnny J. Jones Exposition. Aggregation of fun, producing joy giving, gloom dispelling attractions and amusements will arrive Monday, April 19th, and be assembled at Baggett's Field, and during the entire week will entertain the people of Alexandria.

The Johnny J. Jones Exposition is heralded as the greatest our door amusement enterprise in the world. Advance notice of the Johnny J. Jones Amusements, are lavish in their praise of the newness of the different features as to equipment and act themselves. For almost the entire show is new, and will treat the people of this city to sights which they have not heretofore beheld. Only four of the old attractions remain, following the overhauling at the Orlando winter quarters. Principal of these is the trained wild animal show accredited amongst the finest in the country, and the French and Belgian mid-gets.

But the new riding devices, the Hell Ship, Stella, A Famous Painting exhibited at the exposition at San Francisco and in Canada, are among the things which will be offered for the entertainment and amusement of the public.

The chief claim of the Johnny J. Jones Exposition, and one upon which the Alexandria Elks' based their decision to bring this big amusement collection to Alexandria for its charity fund spring gala week is that of cleanliness and freedom from any of the usual side shows which are becoming "taboo" in the show world.

All over the country records how Mr. Jones, head of this organization, which has grown up in Florida, has stood up for clean attractions, taking on no acts of a questionable character.

SMALL BEGINNINGS

An article occasionally goes the round of the press which shows that some wars of the past were caused by comparatively trivial incidents. Over thirty years ago a strike of employees of the Missouri Pacific Railroad, which tied up that road for months, originated in the discharge of a carpenter who was working for the company at Texarkana. It was alleged by company officials that the man spent most of his time talking and in attempts to make other workmen dissatisfied.

The recent strike of Norfolk and Western Railroad employees was precipitated by the purpose of the company to retain in its service two men who were unpopular with their fellow employees.

An authorized strike of railroad employees, which started a week ago in the Chicago switching district by the discharge of a yard conductor, last night had spread until it had affected twenty-five railroads and in Chicago had thrown more than 50,000 men out of work, either directly or indirectly.

Two "outlaw" organizations, branded by the established brotherhoods as "rump" unions, had sprung up to challenge the right of the labor heads to lead their men.

DEPENDS UPON THE SOUTH

The Manufacturers' Record directs attention to the fact that "the thrill of life stirs the South, its prosperity amazes its own people, its farmers are developing their crops to such an extent that cotton now yields only one fifth of its farm output, its factories of every kind are crowded and many are running night and day to keep somewhere near the demand for their products, its oil industry which is spreading over a vast area is pouring forth a never-ending stream of wealth matching in value the world's gold output."

"Prosperity, rampant prosperity, is now beginning to make itself felt from Virginia to Texas, and a region which was once poor and unable to buy much is now one of the world's greatest markets for everything from diamonds to cook stoves, from automobiles and motor trucks to locomotives, from plows to costly works of art."

"This section, long recognized as the greatest undeveloped asset of America, is now rapidly becoming the greatest developed asset. It furnishes 99 per cent of the country's sulphur, without which we could not have entered the war. It is two thirds of the world's cotton, without which mankind would go unclothed and without which we could have entered the war. It is one of the world's greatest sources of oil, now fast supplanting coal on the sea and on the land. It is a land rich in mineral and agricultural potentialities unknown elsewhere on earth."

"All Americans may well therefore look to this marvelous store of latent and now rapidly developing wealth as the greatest power is carrying forward our country's mighty march of progress."

"Every business man in this country should study the South from the viewpoint of his individual interest in the nation's progress, for upon the South's resources must be built the nation's business structure."

LAWS AND LAWLESSNESS

Resigning his position as United States Commissioner in Brooklyn, Richard M. Cahoon remarks that he is "bitterly opposed to the Volstead act and to many other Federal acts which assume to interfere with the liberty of individual and create employment for Federal officials." And he adds that "there is scarcely a Federal statute that has been passed in the last six or seven years that does not create a crime," and that the methods of enforcing the laws are as objectionable as the laws themselves.

The Philadelphia Inquirer in commenting Mr. Cahoon's action says:

"Although the despotic attempt to regulate the personal habits of the people by enforcement of the Volstead act is obviously the primary reason for the Commissioner's resignation, the issue it raises is broader than prohibition or any single aspect of this tendency he repudiates. To create new crimes has been the object of many a piece of recent legislation, national and State. This is a natural consequence of a widespread misconception of the nature of law—a belief that moral questions may be settled by legal compulsion. Morality may be guarded by law, but not created by it. And law will inevitably prove ineffective in dealing even with the plainest moral questions unless it is backed by an overwhelming public sentiment."

"Now the trouble with the Volstead act and other less extreme legislation of the kind is that the crimes it creates are not regarded as crimes by a substantial portion of the public. Whether this be a majority or a minority does not greatly matter. An aggressive minority may do more to form public sentiment than an inert majority. In any case, a law, though it may be passed by a majority, cannot be enforced against the determined opposition of a minority. This is one very obvious reason why, when crimes are created by enactment, the number of criminals is seldom diminished by the legal

processes of the act. On the contrary, even if the law is aimed at a real evil, it promotes rather than checks that evil by provoking disrespect for all law."

"Too many laws may breed lawlessness quite as easily as too few."

By imposing a fine of \$1,000 on a brokerage firm and another of \$250 on the agent handling the stock of a widely known commercial concern in Richmond, the State corporation commission has begun in earnest the enforcement of the "blue sky" law requiring that licenses be secured from the commission before any such shares may be sold. Pleas of the defendants was that the stock is reliable and that application had been made for a license. The commission held this was not sufficient.

Guy Kitchen, member of Battery A, 149th field artillery, commanded by the late Col. Curtis G. Redden, who was elected city clerk of Danville at Tuesday's election, resigned yesterday in favor of his colonel's widow, who was left with 3 small children. Kitchen, who fought in eleven battles in the world war, was nominated by a number of his comrades on the Republican ticket for the purpose of winning the election and turning the position over to the widow of their chief, who died in France of pneumonia after serving throughout the war.

The Old Dominion Steamship Co. on Tuesday disbanded its entire service, including even the small river lines. Some negro longshoremen, not knowing of the discontinuance of the service, went on strike in Norfolk demanding higher wages. "Take all the time you want about coming back," officials told the strikers.

The Danville police have found an eyewitness to the killing of Eva Boyd by Bruce Wells in S. D. Lee, an insurance agent, who claims to have seen the fatal shot fired and who assisted in carrying the woman into her house. His evidence is considered of vital importance in that it combats the theory of self defense already set up by the accused. Lee bearing the first shot ran to the house just in time, he says, to see Wells standing on the top step of the porch, thrust the weapon against the woman and fired the shot that killed her. Both were in the midst of a warm altercation, he states.

The American schooner Bright, from Norfolk with a cargo of coal for Genoa, ran aground near Cape Henry early last night. Signals from the steamer Relief, of the Virginia Pilots' Association, stationed off Cape Henry stated that the bottom of the schooner was breaking up and immediate assistance was needed.

Mikado to Rule Siberia With "Iron Hand" Until Danger Passes.

MOTHERS, DO THIS—

When the Children Cough, Run Musteroles on Throats and Chests

No telling how soon the symptoms may develop into croup, or worse. And then when you're glad you have a jar of Musteroles at hand to give prompt, sure relief. It does not blister.

As first aid and a certain remedy, Musteroles is excellent. Thousands of mothers know it. You should keep a jar in the house, ready for instant use.

It is the remedy for adults, too. Relieves sore throat, bronchitis, tonsillitis, croup, stiff neck, achia, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of back or joints, sprains, sore muscles, chilblains, frost-bitten feet and colds of the chest (it often prevents pneumonia). city by Japanese last Sunday.

Officials here were not inclined to criticize the stand of the Mikado's forces in Siberia. It was said that it is realized Japan faces the danger of Bolshevism seeping into Manchuria, where she has vital interests, and into Korea.

Military experts here estimate that the Japanese forces now in the Siberian region total about 46,000 of whom 11,000 are believed to be in Manchuria along the Chinese Eastern Railway, near the Siberian border, and 35,000 throughout Siberia proper.

Reporting that the Japanese are in full military control at Vladivostok, the United States embassy at Tokyo advised the State Department yesterday there were a few casualties during the fighting. No Americans were injured.

JOHNSON GAINS

Result of Late Count Show Him Leading Wood by 45,699 in Michigan

Detroit, April 8.—Results tabulated yesterday from Michigan's Presidential preference primary showed a gain in strength for Senator Johnson, of California.

Totals for 1,887 precincts out of 2,421 gave Johnson 143,524. Major Gen. Wood was second with 96,826.

Governor Lowden retained his lead over Herbert Hoover for third place by slightly less than 3,000 votes.

The same number of precincts gave Hoover a lead of nearly 5,000 votes over Governor Edwards for the Democratic endorsements.

Washington, April 8.—Politicians at the Capitol, analyzing the Michigan vote, yesterday said its effects on the national campaign can hardly be overestimated.

It made Senator Johnson a serious contender, they said, forcing the Old Guard leaders to take him into consideration.

It indicated, also that Hoover's popular following may make trouble for both parties, Senators and Representatives said.

In a telegram to friends here, Johnson yesterday expressed his gratification over the result.

COLBY UNDER PICKETS FIRE

Parade Before State Department With Excerpts From Speech by Him

Washington, April 8.—Rainbridge Colby, Secretary of State, was the target for the Irish pickets yesterday.

Temporarily suspending their activities in front of the British Embassy, the women this afternoon appeared suddenly in front of the State Department bearing aloft banners inscribed with quotations from a speech made by Mr. Colby in New York following the Irish Easter uprising of 1916, when nearly a score of Sinn Feiners were shot down.

The quotations carried were as follows:

"I cannot stand by mute and passionless as these voting offerings are laid upon the altars of patriotism."

"The death of your martyrs has called into existence millions of Irishmen by principle."

"There is not a scintilla of legality in England's claim to rule Ireland."

Returns From 1,428 Precincts Make Senator's Victory More Certain

Detroit, April 7.—Returns from 1,428 precincts out of 2,421 in the State showed little change early last night in the race between Senator Hiram W. Johnson and Major General Leonard Wood for the Republican Presidential endorsement of Michigan voters.

In the Democratic contest, Governor Edwards, of New Jersey, forged ahead of Herbert Hoover.

THIRD TRIAL POSTPONED

Winchester, Va., April 7.—The third trial of W. C. (Kid) Hall, of Danville, the state prohibition agent charged with shooting and killing Raymond Shackelford and Lawrence Hudson, alleged bootleggers on the Valley turnpike, near Fishers Hill, March 26, 1919, was postponed at Manassas owing to the absence of Louis O. Wendenburg, chief counsel for the accused, who is in New Mexico. The case was continued until the June term. At the other two trials the juries disagreed.

The brides witnesses were the Countess Marcelle Gianotti and Col. Mirio de Bettignien, and the bridegroom's his brothers, Count Claude and Count Bernard.

DAYLIGHT BILL PASSED

Massachusetts Measure Awaits Governor's Action

Boston, April 8.—The bill providing daylight saving for the state, beginning April 25, was in the hands of Governor Coolidge last night awaiting his signature or veto. It was given final passage in the Senate this afternoon to complete the action taken by the House yesterday.

COLD WAVE HURTS FRUIT

Peaches, Apples and Pears, However, Not Touched

Hagerstown, Md., April 8.—Apricots and early cherries were frozen in some sections Monday night during the cold wave that struck the Western Maryland fruit belt. The mercury fell, during snow flurries, to seven degrees below freezing. Peach, apple and pear buds escaped the freeze. High winds drove the moisture from the buds and saved them.

PICKETS TAKE TO AIR

Barred from the streets surrounding the British embassy, in Washington, pickets yesterday took to the air. From a flying machine they rained down packages of leaflets, espousing the Irish cause, and challenged the police to come up and stop them. There being no sky cops in the national capital, no arrests were made. Four land pickets, however, who ventured out earlier in the day were arrested and held in the house of detention.

COAL, LUMBER AND BUILDING MATERIALS**EXAMINE OUR GRADES WHEN CONSIDERING PRICES:**

With prices on Lumber and other Building Materials at their present levels, there are many items in the lower grades which can often be substituted satisfactorily and at a considerable saving.

We have become so much impressed with the possibilities of doing this to advantage that we are exercising the greatest care in buying only from those mills who pay the closest attention to the manufacture and grading of their lower priced stocks.

We ask our customers to examine these grades when buying as we believe they will find some excellent values, and a knowledge of what a carefully selected lower grade really is will often prevent the buying of a so-called higher grade at a little under the market price for the high grade, when it is actually a lower grade and can be bought as such.

MRS. CUMMING FREED

"Ten-Minute Bride" Declared Not Guilty After Jury Deliberated Ten Minutes

Hampton, Va., April 8.—Miss Jester Cumming, "the ten-minute bride" is a free woman.

Four minutes after the jury before which she stood accused of the murder of her husband, S. Gordon Cumming, had begun deliberating on the case, a verdict of not guilty had been agreed upon.

A quarter of an hour later she walked from the court room with her child Kenneth, the seven year old son of the man she killed, exonerated of the slaying which came as the climax of six years of mistreatment by the husband and lawyer.

It was the testimony of alienists as to Mrs. Cumming's mental condition at the time of the killing, introduced by the defense yesterday afternoon, that proved the most telling of the trial.

Dr. L. S. Foster, specialist in nervous diseases, after the outlining of a hypothetical case by Richard E. Byrd, attorney for the defense, declared that no person could have endured conditions such as presented without losing control of will, becoming impulsively insane and ceasing to be responsible for acts committed.
